THEODORE STILLMAN CHAPMAN

DEDICATION

This Echo of 1944 is dedicated to Theodore Stillman Chapman, former president of the Board of Trustees of Monticello College.

"Mr. Theodore Stillman Chapman who died June 1, 1943, was a perfect example of the kind of man who has made the United States of America not only one of the great nations of the modern world, but also a place where people like to live.

"Here at Monticello we shall miss his jaunty step, his cheery greeting, his twinkling smile, his driving power, his great interest. But we shall take renewed courage from his example and shall gather to ourselves strength from his achievements."

(Taken from a tribute written by Dr. George Irwin Rohrbough and Dr. Truman B. Douglass for the Board of Trustees)

"A WISH FOR EACH SENIOR"

I wish for you a capacity to separate the important things in life from the trivial and to live by and for the important and not the inconsequential.

May you so order your years that life continuously opens up before you. May you have a dynamic, creative, developing theory and practice in living. When you look back upon the "good old days" at Monticello, may those good times not only serve to remind you how much you have done since graduation but their memory should always urge you on to greater works for the welfare of your fellowman. "Grow old along with me, the best is yet to be."

ACTIVITIES

STUDENT COUNCIL

Elected by student vote, this hard-working governing group rules with an intelligent hand the activities and affairs great or small of Monti girls. Culmination of their fine efforts was materialization of Ann Shaw's revised election system given its first trial when the student body selected and elected student association officers for 1944-1945.

Shouldering their responsibilities well are these governing bodies in each dormitory who vote on adjustments to be made for girls violating rules, maintain order and quietness in the halls, and are in charge of all house activities.

If it weren't for Edi Mart and her brigade of seasoned Sponsors, the newcomers might still be wandering around trying to find the Baldwin exit, wondering if Haskell was on campus, or running up and down the senior stairs at will.

Plunging into their activities with teas, splash parties, faculty deserts, and spreads, sponsors made the new students feel more like Monticello girls. These voices of experience have pointed out stumbling blocks all year and their gay yellow buttons emblazoned with "Ask Me, I Live Here" have been the symbols of an oasis of help.

MONTICELLO PLAYERS

Monticello Players is the ultimate goal of those working in the drama department. They this year produced two major productions and elected new members honoring them with a banquet.

Betty Hermes, President

The experimental workshop was created this year to give drama students an opportunity to apply those things they had learned in class on the stage and to provide entertainment for the campus community. During the year the members of the workshop presented three one-act plays. They also formed their own laboratory workshop and worked with Godfrey school children, directing and helping to produce several plays with them.

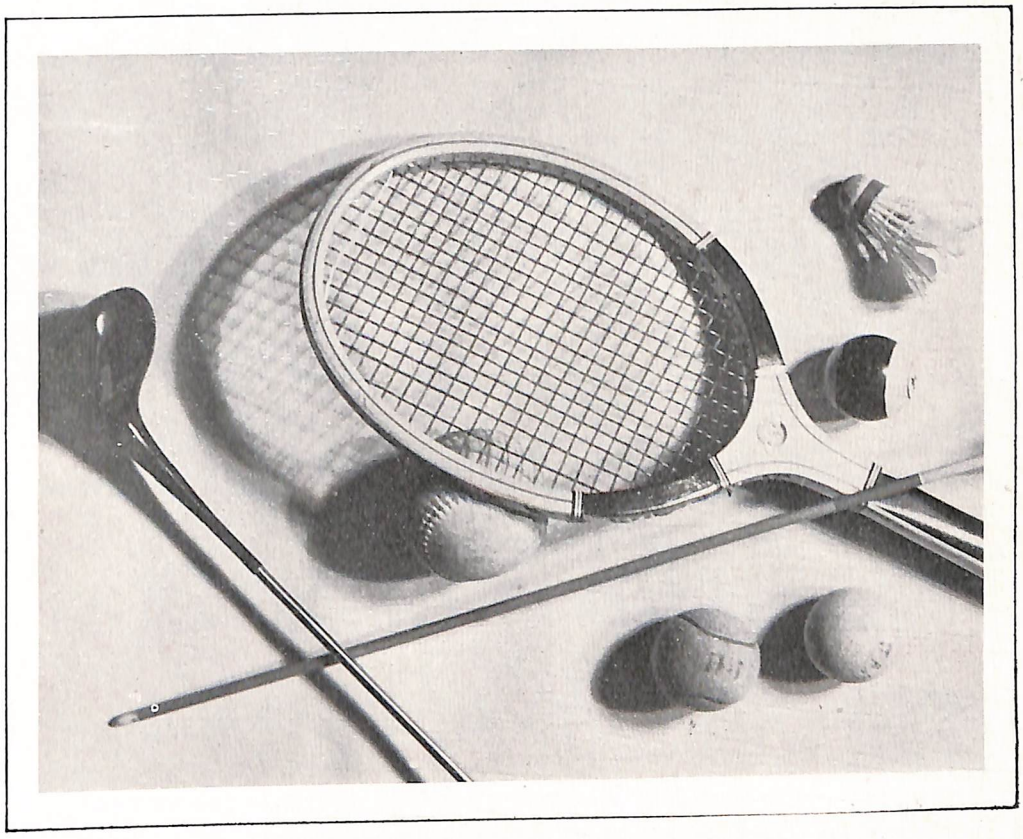
At each bi-monthly meeting of Science Club a different science is represented by panels, demonstrations, and speakers. After the annual Christmas dinner, the members strung berries and pop corn and hung them on trees outside Fobes for hungry birds—another Monti tradition. The club went on spring field trips and picnics. Science Club was in charge of annual science open house this spring when each student in the department contributed an exhibit showing a particular phase of work done this year in her class.



SPORTS

NANCY SCHMIDT

M. A. A. BOARD

Every student at Monticello is a member of the Monticello Athletic Association. It is governed by a board consisting of four officers and the manager of each campus sport. M.A.A. offers an equal opportunity to all students who wish to participate in the voluntary sports program regardless of proficiency. At the close of each season M.A.A. gives a banquet reviewing the sports of that season, and tri-college sports days between Monti, Lindenwood, and MacMurray were also sponsored by M.A.A.

HOCKEY

This year there were several intramural hockey games and some inter-collegiate competition. Included in the former were exciting conflicts between the Gold team headed by Janet Bromage and the Black team supervised by Libby Hake. In the fall the seniors won the annual Thanksgiving game against the juniors. Two trips were made by the college team, when games were held with Principia and MacMurray. At the Fall Sports Banquet Nancy Greer was announced as hockey manager for 1944-45.

Basketball was a popular winter sport, and provided recreation for Monticello girls. The varsity team, captained by Eddie Burruss, was chosen from the girls who came out during voluntary sports hour . . . the choice was based upon interest, ability, and sportsmanship. Three intramural teams, senior, junior, and prep (nicknamed the Basket Belles) provided fun and competition in the afternoons.

BASKETBALL

In February, Principia "came, saw, and conquered". At the student-faculty game, March 17, the latter showed their prowess in matters physical as well as mental. We entertained Lindenwood and MacMurray on tri-sports day, March 18. Monti placed second. Ann Jennings was basketball manager.

RIDING

Approximately seventy-five girls took riding this year. The riding team, which represents Monti in any competition between schools, was chosen from this group. SWIMMING

Swimming this year was a regular class as well as a voluntary sport. The student life-guards were very generous with their time, and the pool was available at almost any hour. This practice time proved beneficial because Monti placed second in the tri-college meet. At the beginning of the year tryouts were held for Marlin Club. The accepted members joined the old ones in presenting an outstanding pageant, "Tropic Topic", which portrayed the amusing story of a group of jolly tars marooned on an island with a galaxy of native belles.

TENNIS

Tennis proved popular both as a fall and spring sport this year. The courts were surfaced before school opened, giving delighted enthusiasts more opportunity for playing. There has been voluntary tennis all year, and the courts are open to anyone at any time classes are not in session. On Thanksgiving there were matches between students and between students and faculty. Tennis tryouts in the fall and spring enlarged the Tennis Club to sixteen members.

The tennis team was chosen April 18 after tryouts. The members are:

MODERN DANCE

Mary Hoge and Helen Jane Laughlin practice for "The Juggler of Notre Dame"

The Modern Dance Club worked hard this year to provide a number of welcome entertainments. In the fall they held a studio recital followed by a barn dance, and at Christmas the candlelight service was held after the doll dinner. In the spring Catherine Charles was the acting manager who collaborated with Miss Robarge on the annual spring dance drama. The club presented the unusual in "Everybody Join Hands" by dancing to choral speech and choir singing instead of ordinary piano accompaniment. The final portion of the drama was a surrealistic interpretation of Stravinski's "Firebird Suite" and a group of duets and solos.

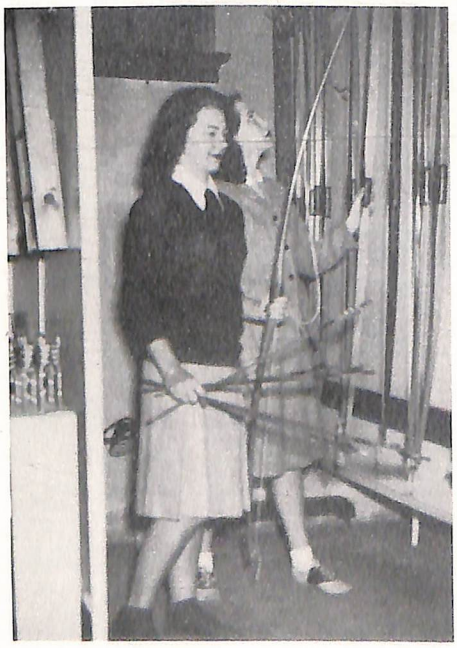
ARCHERY

Archery was another of the classes with supplementary practice hours. These voluntary meetings took place every Tuesday and Thursday afternoon with Miss Harriet Lishen and manager Jane Anderson in charge. Score cards were kept by the girls to compare their total points for each day and to keep track of each individual's progress. This spring a regular and a clout tournament were held under Janie's supervision.



In the equipment room are Helen Jane Laughlin and Margaret Cox, about to go out for a few ends of archery.

BICYCLE CLUB

Boasting a large group of members and numerous bicycles, the club functioned all year, but especially was the sport popular in springtime when rides to Godfrey, the Inn, or through the woods were in order.

Some members pose steadily before taking off on a cross-campus jaunt.

GOLF

Golf classes this year were attended with enthusiasm, and practice was rigorous. During the fall and spring the girls took trips to the Alton municipal golf course for their own entertainment.

BADMINTON

Badminton was a voluntary sport as well as a regular class, and quite a popular one. The courts in the gym were open at all time for any girls to use.

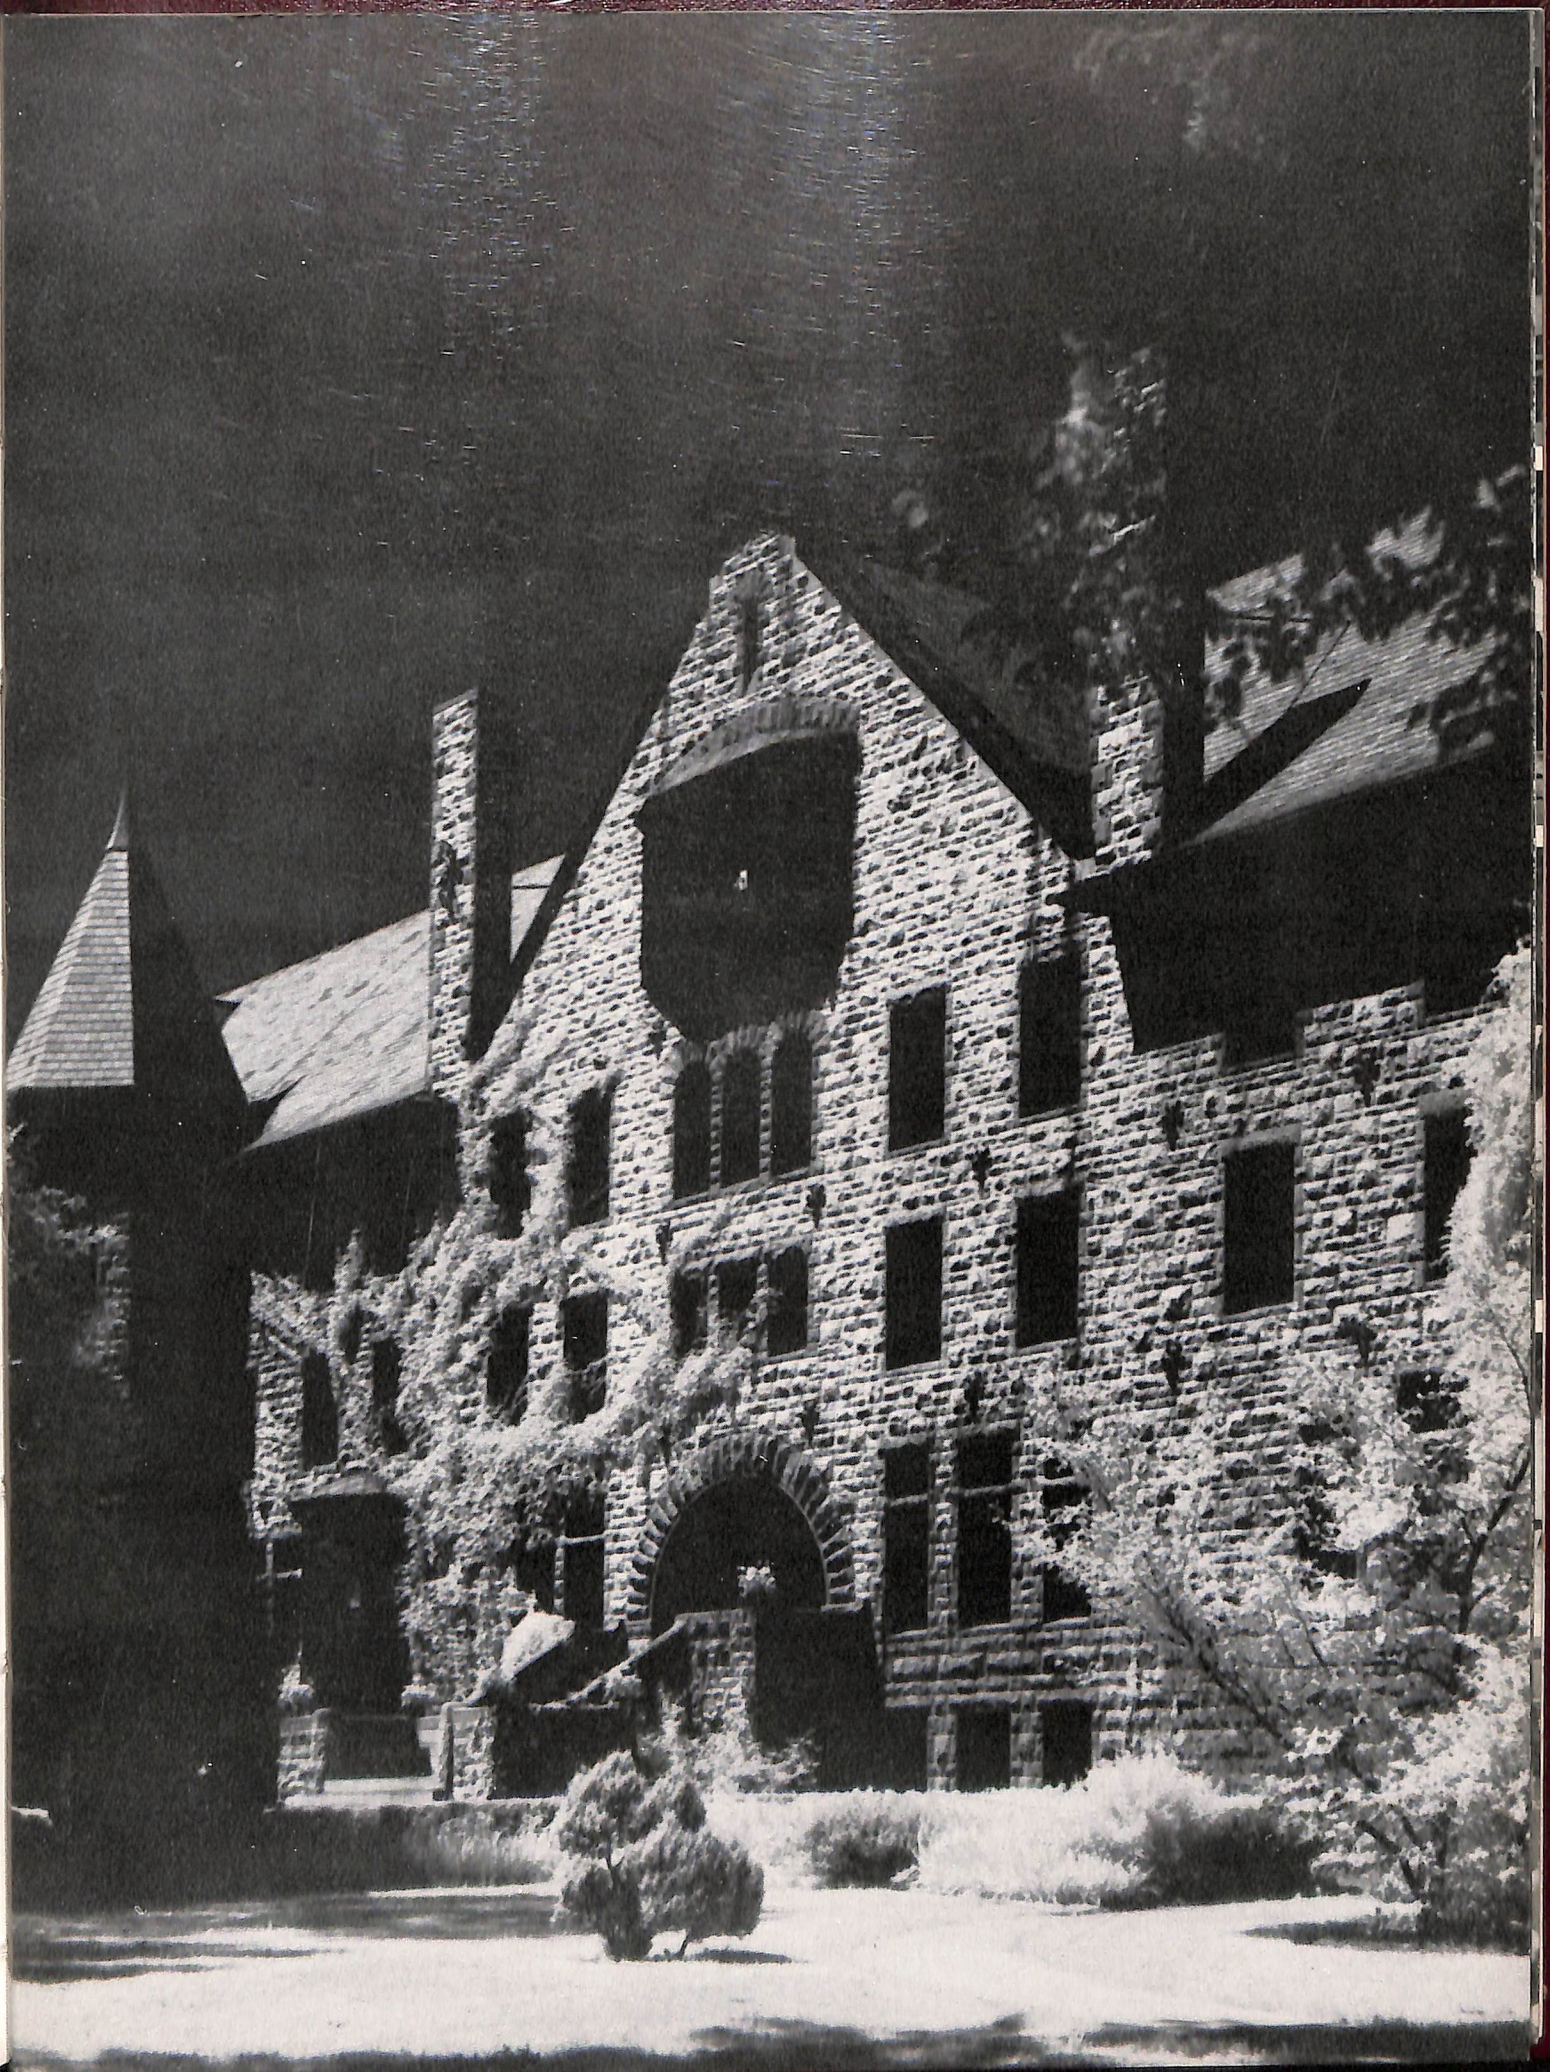
MEMORIES

Beside the stonewall lies the walk to Godfrey which, if it could, would show footprints of generations of moccasins, high-heeled sandals, and rubber boots.

These are senior steps which none other than seniors may tread and through the front entrance to the main building of Monti.



Down the long brick walk we passed each morning to find in chapel a beginning for the new day. On Sundays we went to vespers and returned with inspiration for this job of living.
